## MERELY A SUGGESTION

UNTIL Governor Boyle has signed the Keddle bill it is not absolutely certain that the state fair will be removed from Reno to Fallon. It might be argued that in view of the splendid support given the candidacy of the governor by the business men's league of the riverside town, he will be chary about affixing his signature, particularly as he did not run so strongly in the Churchill capital. But there are other influences at work now and the governor may not consider himself bound by past favors.

The official name of the state fair is the Nevada State Agricultural society. Horse races, pari-mutuels, touts and jockeys are not agricultural in the strict sense of the word, nor are they what might be severally, or collectively known as "rubex." But prize pumpkins are. And these, by the grace of the legislature, might still be annually exhibited in Reno while the horse races are conducted in Fallon. They don't mix well, anyway, pumpkins and plungers. A happy compromise might be reached by exhibiting the carrots at Reno and the cayuses in Churchill and split the appropriation, 50-50. The Bonanza doesn't argue in favor of such action, but merely makes the suggestion in view of the fact that race track gambling and exhibits of the products of the state don't seem to jibe very well, even if there is the honorable precedent of the county fair of times ago and in regions remote.

## THE GREATEST MYSTERY IN WORLD'S HISTORY

SOMEDAY, somewhere, there may arise one who is greater than a prophet, one who will be able to explain why certain prophecies were fulfilled, namely that there would be "wars and rumors of wars." Press dispatches tell us that the Russian soldiers are dissatisfied and are fighting languidly. There is a strong movement in Germany for peace. England is not treating the war in all seriousness. Portugal, if it fights at all, will do so despite the remonstrances of the greater portion of the population. Italy will be driven to battle should it happen to declare belligerency. Belgium simply defended its neutrality pledges and its homes. France was compelled to protect its boundaries. Japan hasn't fought at all, except to take a German possession that really belonged to China and which it expects to be given as prize money at the conclusion of the war.

Really none of the nations involved seems to have wanted to fight, not even the poor Balkan governments, which had just emerged from two strenuous campaigns. Turkey is simply doing bidding and thus to the end of the line. Now, let the wise man arise and tell us what it is all about and who will profit in the end.

## AN UNFORCED ORDINANCE

AN ordinance enacted by the board of commissioners of Nye county, sitting as a Tonopah town board, provides that all dogs within the limits of the City of Tonopah shall be taxed and tagged, the execution of this ordinance being made the duty of the chief of police. A considerable sum of money could be added to the public treasury by enforcing this ordinance. It would serve another excellent purpose, namely the elimination of ownerless canines that are a nuisance and a menace. They render night hideous with their howling and are a peril by day, particularly to women and children. Owners of dogs that are really dogs would have no serious objection to paying the taxes on their animals, while those not reclaimed could be "removed" by the poundman.

The county commissioners made this ordinance, now let them cause it to be enforced, there being a special poundman appointed, to serve under the fee system, if necessary, but no matter how it is accomplished, let the licensing and tagging of dogs be undertaken and not in a spasmodic manner, but as a permanent institution.

## A METHOD IN REPUBLICAN MADNESS

FROM all indications an extra session of congress is to be foisted upon the people of the United States, and congresses, whether regular or special, are expensive luxuries. Some people are disposed to attach the blame for this exigency upon the filibustering Republicans, but on the very face of the idea it is not only erroneous but silly. The Republican party never opposed expansion of shipping. It is the party that seeks to expand trade relationships, although opposed to having "everything coming in and nothing going out" in the way of natural or manufactured products. The United States seeks to be an exporting nation and the Republican party is the moving spirit along this line, but even the Republican party declines to accept the plans of an individual who never manufactured or exported anything except academic ideas. The ship bill of the administration, which has been fought to its last ditch, is really a measure tending toward belligerency instead of toward expansion of commerce, and well the Republican congressmen know this and well they are fighting the issue.

## CANDIDATES FOR THE SEWER

DRAINAGE districts are being formed in a number of places in Nevada, for the purpose of getting rid of superfluous moisture. There are other substances than moisture that should be sewered out of this presumably arid commonwealth. Some of them are individuals and some are collections of individuals. The recall law, which will shortly be in full force and effect, will provide one means to the end and the people of Nye county particularly are interested in bringing the law into full operation.

Then it would be an excellent plan to drain out a lot of the laws. They would make excellent fertilizer. Statute books and decisions, from justice to supreme, from city halls to federal courts of justice, could provide sufficient of the latter to make the desert bud and blossom like the rose. The mossbacks, sillurians and leththeraueses, or however they may have their cards engraved, are also due to be sent down the channel. The

## Select Your Druggist As You Do Your Doctor

Many people nowadays have no regular trading place for drugs. Then seem to patronize the "handient" place without giving thought to quality of drugs or character of service.

Your druggist should be chosen in the same way that you choose your physician.

We are in a position to promote your best interests in every way and we wish to add you to our list of loyal satisfied customers. Let us be your family druggists.

Bonanza proposes the forming of a drainage district for Tonopah and Nye county without delay.

For the first time in two hundred years the British government has asked parliament for a blank check for army purposes. What more natural seeing that the British constitution is largely made up of checks and balances.—Deseret News.

It is also rather appropriate, someone suggests, that the word "wets," spelled backwards, signifies a stew.—Kansas City Star.

We see a recipe telling how to prepare and cook turnips, but it doesn't say what to do with them after they are cooked.—Toledo Blade.
